THE MOUNTAIN VINEYARDS

AWARD-WINNING WINES

OUR GLORIOUS LOCATION & WINES

In the beautiful Bredekloof, only an hour's drive from Cape Town, lies a winery that sets itself apart in terms of magnificent scenery and rarefied terroir for its wines. And now, esteemed local and international wine judges agree: Silk bush Mountain Vineyards' wines are just as special as its awe-inspiring location.

As the name suggests, Silk bush Mountain Vineyards is a wine farm located on the slopes of the Silk bush Mountain in the Bredekloof region of the Breede River Valley.

We are establishing ourselves as a world class producer of high end wines.

Here, a variety of noble wine grape cultivars are planted on fertile hillside soils up to 700 meters above sea level. This unique mountain terroir gives the wines individualistic character that can be tasted in their intriguing, well defined flavours. These wines have caught the attention of judges at recent influential competitions like the Ultra Wine Challenge and Michelangelo International Wine and Spirits Awards, as well as the Vitis Vinifera Awards, where various medals were won. This underscores the viticultural and cellar teams' commitment to quality, using their skill to craft the raw gems of nature into polished final products that is enjoyed by consumers and critics alike.
